

## Organic Barley Grass

### Barley Grass Nutritional Contents & Benefits

Barley grass is well-known as “king of alkaline foods”. It is a whole food made from the dehydrated young leaves of the barley plant, offering balanced nutrition to the body with its alkalinizing contents. It provides high levels of protein, fibre, β-carotene, and also contains a concentrated source of vitamins and minerals including vitamin B1, B2, B6, B12, pantothenic acid, folic acid and sodium, potassium, calcium, iron, phosphorus magnesium. Other constituents are chlorophyll, amino acids and enzymes.

Barley grass health benefits include:

- ✓ Acts as a Powerful Antioxidant
- ✓ Boosts the Immune System
- ✓ Combats Cancer
- ✓ Detoxifies the Body
- ✓ Protects from Radiation
- ✓ Treats Ulcerative Colitis
- ✓ Helps Fight Addictions
- ✓ Aids in Weight Management
- ✓ Prevents Asthma
- ✓ Manages Diabetes
- ✓ Promotes Bone Health
- ✓ Improves Skin Health
- ✓ Repairs DNA

### Barley Grass Cultivation & Manufacturing

ACE™ is associated with barley grass cultivation in **USDA Organic** certified farms. Only absolute non-pollution fields with best alkaline soil are selected to grow this plant.

ACE™ Barley Grass is harvested at peak nutrient density – when the young leaves are 12~15 inches high. It is processed in 100% pure and does not contain any excipient and preservative. It's manufactured in ISO / HACCP / FSSC / KOSHER / HALAL certified factory.
